

Community Partnerships

The Downtown Oakville BIA supports events and activations throughout the year and has reserved funds to support the marketing of locally driven events that are a good fit for our community. We believe strongly in supporting community events that bring our business community, residents and visitors together.

Community organizers are invited to apply for support for their event through an online form on our website. Priority will be given to activations that provide support for charities and non-profits and/or have a positive impact on our community.

Support from the BIA may come in the form of cash or marketing support, including promotion across our website, social media and email channels.

Organizers are responsible to confirm permitting with the Town of Oakville and acquire any and all insurance required. The BIA does not organize or co-organize the event.

Charitable Partnerships

The Downtown Oakville BIA supports our community through charitable partnership activations including:

- CAMH Giving Tree
- Tails and Treats in support of the Oakville & Milton Humane Society
- The Kerr Street Mission Food Drive
- Letters to Santa
- Lighthouse Art Installation
